

Open WebUI 0.8.1 — Stock Baseline Reference

This document describes what a stock Open WebUI 0.8.1 deployment looks like. Anything not listed here is either custom RegOS work or a build artifact.

Source Version

- **Package:** open-webui v0.8.1 (from `package.json`)
- **License:** BSD-3-Clause (see `LICENSE`)
- **Upstream:** <https://github.com/open-webui/open-webui>

```

Build Artifacts (Generated)

These directories are created at build time and are NOT part of the source:

- `.svelte-kit/` — SvelteKit build output (generated by `vite build`)
- `node_modules/` — NPM dependencies (generated by `npm install`)
- `__pycache__/` — Python bytecode cache
- `backend/data/` — Runtime data (SQLite DBs, uploaded files, vector stores)
- `uv.lock` — Python dependency lock file

Key Stock Files at Root

File	Stock?	Purpose
CHANGELOG.md	Yes	Open WebUI upstream changelog (554 KB)
CODE_OF_CONDUCT.md	Yes	Open WebUI code of conduct
CONTRIBUTOR_LICENSE_AGREEMENT	Yes	CLA
LICENSE, LICENSE_HISTORY, LICENSE_NOTICE	Yes	BSD-3-Clause license files
TROUBLESHOOTING.md	Yes	Open WebUI troubleshooting guide
Makefile	Yes	Build shortcuts
Dockerfile	Modified	Docker build (RegOS adds neo4j to requirements)
docker-compose.yaml	Modified	Compose config (may include RegOS services)
README.md	Modified	Contains APAS/RegOS setup instructions
.env / .env.example	Modified	Environment variables include RegOS entries

File	Stock?	Purpose
.gitignore	Modified	Includes RegOS-specific exclusions
confirm_remove.sh, run-compose.sh, run.sh, etc.	Yes	Stock utility scripts
contribution_stats.py	Yes	Open WebUI contributor stats script

What Stock Open WebUI Does NOT Have

None of the following exist in stock Open WebUI — they are all RegOS additions:

- No regos_setup/, regos-installer/, gtihub-regos-installer/ directories
- No RegOS_*.docx, RegOS_*.xlsx files
- No benchmark/, legal-chunking-dashboard/, RegOS_Integration_Package/ directories
- No graphrag_filter.py, audit_logger.py, threshold_eval.py at root
- No demo_*.py, diag_*.py, verify_*.py scripts at root
- No regulatory_thresholds.json, neo4j_query_*.json at root
- No pdf_benchmark.py, benchmark_strategy.md at root
- No .drawio, .svg architecture diagrams
- No OPERATIONS.md at root
- No email_preview.html, format_email_node_v3.js (n8n artifacts)
- No Municipal_Code_Chunking_Strategy.md, RAG_Pipeline_Expansion_Mockup.html
- No Opa-locka, FL Code of Ordinances.pdf
- No Legal_PDF_Dashboard_Demo_Script.pptx
